Patent No. 6479731

GENERAL INFORMATION:

APPLICANT: Valent, Barbara S.

APPLICANT: B. I. du Pont de Nemours and Company

TITLE OF INVENTION: A Pi-ta GENE CONFERRING DISEASE RESISTANCE TO F

PILE REPERENCE: BB-1136

CURRENT FILING DATE: 1999-06-21

PRIOR APPLICATION NUMBER: 60/095229

PRIOR APPLICATION NUMBER: 60/095229

PRIOR PILING DATE: 1998-08-04

NUMBER OF SEQ ID NOS: 74
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             ဥ

On Apr 8, 2004 this sequence version replaced gi:22415844.

The orientation of the sequence is from SP6 to T7 of the PAC clone.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       PLN 09-APR-2004
